

This country is in a REAL mess. It seems to me rather than attacking Satellite radio and every new technology that comes along, that energy is spent on getting our kids out of Iraq, Getting people who have been on the dole for years and years OFF Welfare and WIC. I am expected to chip in for every woman who has a child that she cannot afford and yet when I PAY for something of which I have worked, it wants to be taken away! Oh please! Our deficit is HIGHER than it has ever been! FIX THAT!!
